The Intranet is the "old" website of the archdiocese where many of the forms, documents and manuals you are used to using have stayed. Please use the Intranet and MyArchmil as you have done in the past for staff resources and similar resources for volunteers and committee members. If you have questions, please feel free to send a note to the webmaster in the contact box.

## Appendix A: Deactivating a User

### Deactivating a User

Parishes and schools should update user profiles whenever an employee starts or terminates employment with the parish or school.

Parish volunteers should be updated at least once per year. As trustees and council members typically rotate on and off effective as of July 1<sup>st</sup> each year, this would be an ideal time to update contacts.

Keep in mind that some users may have multiple roles, sometimes at more than one parish. If an individual has multiple roles, instead of deactivating the person, simply edit the tags to remove areas that are no longer valid.

To deactivate an existing individual, follow steps 1 through 5c above.

When the profile appears, deselect the “Is Active” checkbox, found just above the “Login Information.”

#### Edit Name

- Do not use the Back button at any time during the editing process
- Complete as much Contact information as possible
- Assign the appropriate Tags and User Security settings
